

OSU College of Forestry
McDonald-Dunn Research Forest Community Listening Session
Peavy Forest Science Center and Online (via Zoom)
7 November 2022

Agenda

Meeting Purpose: Hear the ideas, experiences, and hopes for the McDonald and Dunn Research Forests from those who use the forests or are interested in their future as the College develops a new forest management plan.

Start time	Leader	Activity
6:00pm	Turner Odell <i>Senior Project Manager, Oregon Consensus</i>	Welcome Inform that Oregon Consensus was hired to facilitate stakeholder engagement throughout the forest management plan development process Provide guidelines for this session
6:10pm	Holly Ober <i>Associate Dean of Outreach & Extension, College of Forestry</i>	Overview of the College of Forestry Research Forests, the intent of forest management plans, and the process being used to develop the new forest management plan for the McDonald and Dunn Research Forests. Clarification that the intent of the listening sessions is for the College to hear from the community. Overview of questions intended to guide the discussion at this session: <ul style="list-style-type: none"> • What do you value about the forests? • What could be done to increase the ability of the forests to provide learning opportunities? • What should be prioritized to ensure sound forest management in the face of changing conditions (increased recreational use, wildfire risk, and climate change impacts, etc.)?
6:30pm	Turner Odell <i>Oregon Consensus</i>	Gathering of input from participants attending both in-person and remotely (via Zoom)
8:00pm		Adjourn

Next steps: Oregon Consensus will compile all comments into a document and create a summary report that will be shared with the Stakeholder Advisory Committee (SAC) and Faculty Planning Committee (FPC), and posted online. The recording of the meeting will also be posted online.
