OSU RESEARCH FOREST
DUNN FOREST HUNT RULES

Hunters must comply with all regulations set by Oregon Department of Fish and Wildlife and OSU Research Forest Hunt Rules.

Violation of these rules will jeopardize your future hunting privileges

Hunting is only allowed on the Dunn Forest. There is NO hunting allowed on the McDonald or Cameron Forest.

Hunting is prohibited for predators, upland game birds, or any animal other than the one associated with the specific hunt indicated on your permission letter.

Vehicle access is prohibited. Hunters can access the forest by mountain bike, horseback, and on foot.

You may only park at 100, 200, 300, or 400 OSU Research Forest gates.
- Do not park and access the Dunn Forest from the 000 gate or on any other property adjacent to the Dunn Forest without the landowners permission.

Do not block access to gates with your vehicle. It may be towed.

The Research Forests’ access letter, ODFW license and tag must be carried with you at ALL times.

Camping on the forest or next to forest gates, building fires, and smoking are all prohibited on the Forests.

Cutting firewood or removal/destruction of any other natural or man-made resource is prohibited.

Alcohol possession on the Research Forest is prohibited.

When you gut your animal, move entrails at least 20 feet off the side of any road and at least 20 feet from any watercourse.

Temporary tree stands, such as ladder stands and self-climbing stands, are allowed as long as no damage is done to any living tree in erecting, maintaining, using, or accessing the stand.
- Climbing spikes are prohibited.
- Tree stands may remain in place during the hunting season. Stands must be removed within one week of the end of the season. Any tree stands found outside of hunting season will be considered abandoned and confiscated by OSU.

Target practice is prohibited on the Research Forests. Sight in your weapons prior to the hunt, away from the Research Forests.

Do not litter. Pack out what you pack in!
Frequently Asked Questions

Is it legal to harvest other species with the proper tags? (E.g., cougar, bear, squirrel, etc.)

Hunting is prohibited for predators, upland game birds, or any animal other than the one associated with the specific hunt indicated on your permission letter.

Can I set up a trail camera?

Currently, OSU Research Forest allows for trail cameras, but hunters must use at your own risk. OSU Research Forest is not responsible for vandalization or theft.

Am I allowed to set up a tree stand?

Temporary tree stands, such as ladder stands and self-climbing stands, are allowed as long as no damage is done to any living tree in erecting, maintaining, using, or accessing the stand.

- Climbing spikes are prohibited.
- Tree stands may remain in place during the hunting season. Stands must be removed within one week of the end of the season. Any tree stands found outside of hunting season will be considered abandoned.

I have a letter of permission to hunt on the Dunn Forest. Can I take another hunter in with me?

You are welcome to bring another person with you, but they cannot carry a firearm or hunt on the forest without a letter of permission in their name as well. Only individuals drawn who have an ODFW tag and Dunn Forest letter of permission can hunt and harvest the animal.

Can I access the Dunn Forest to scout prior to the season opening?

Yes, you can access the Dunn Forest prior to the season, but cannot hunt. The Dunn Forest is open to the public for non-motorized use 5am to 9pm year-round.

Am I allowed to park at the 100 gate and walk through the College of Ag Lands with my rifle/bow as long as I don’t hunt until I’m through that area?

OSU Research Forest has a road easement with the College of Agriculture for the 100 Road. Hunters are allowed to walk along the 100 road with your rifle/bow, but will not be able to shoot or harvest until they get onto Dunn Forest property. Similarly, hunters can walk the 400 road with their rifle/bow, but can only hunt on the side of the road that is OSU Research Forest property.
Is there a KML or GPX file available of the hunting boundary that I could import into my GPS/navigation device?

We have a georeferenced map of the Dunn Forest that can be used in apps such as Avenza for navigation. Map is located here.

If I draw a hunt permit for the Dunn Forest, does it allow me to hunt on surrounding properties, such as OSU Ag Lands as well?

No. The OSU Dunn Forest and OSU College of Agriculture hunts are separate so hunters need a permit for each location if they want to access the full area.

If I draw a hunt permit on OSU College of Agriculture Lands, does it allow me to hunt on the Dunn Forest as well?

No. You can only hunt on the Dunn Forest if you have the proper ODFW tag and were successfully drawn to hunt on the Dunn Forest.

How can I get permission to hunt on OSU College of Agriculture Soap Creek and Berry Creek properties?

Information about OSU College of Agriculture hunt by reservation program is located here: https://myodfw.com/HBR.

Can I hunt on other Research Forest properties?

Non-motorized recreation including hunting is allowed on the following satellite Research Forests: Matteson, Rams Dell, Blodgett and the Oberteufer Forest. Hunting is absolutely prohibited on the McDonald Forest.

I applied for the Dunn Forest hunt and have not heard back yet. How will I know if my name was drawn?

Individuals selected for the hunt through a random drawing will receive a letter in the mail and an email granting access to hunt on the property.

OSU Research Forest updates the hunt webpage when the letters have been sent out. If you did not receive a letter in the mail or via email, you were not drawn and need to apply next year. See example from our webpage below.
I missed the application window to apply. Can I still put my name in?

No. Once the application window has closed, people are no longer able to submit their names. Try again next year!
Hunting is only permissible on OSU Dunn Forest, with permission. ABSOLUTELY NO HUNTING ON THE McDonald FOREST
