

Restoration Volunteer Opportunity

Jackson Meadow

*Help contribute to ecological restoration
on the ground in your community*

Friday, Feb. 21 & Mar. 7

9:00 a.m. to 2:00 p.m.

in the OSU McDonald-Dunn Forest

Please join the Institute for Applied Ecology (IAE) and Oregon State University (OSU) for volunteer opportunities at Jackson Meadow in the McDonald-Dunn Research Forest! During these events, volunteers will help dig and pull Italian arum and other invasive species. Your efforts will directly contribute to the success of this restoration project!

When: Friday(s), February 21 and March 7 between 9 am – 2 pm.

Where: Jackson Meadow in the McDonald-Dunn Research Forest.

Bring: Water, lunch, waterproof rain gear.

Registration: Please RSVP to the event by emailing Evan Lasley (evanlasley@appliedeco.org).

All volunteers (or parent/guardian if the volunteer is a youth) must fill out IAE's volunteer release form. Questions can be directed to Paul Reed (paulreed@appliedeco.org).

Location for event provided upon RSVP confirmation. Limited carpooling from Corvallis is available. Learn more at appliedeco.org/calendar.
