

# Eye Spy:

How Many Species Can You Spy in this Painting?

Deirdre Hyde is an artist who lives in Costa Rica and paints beautiful forest landscapes all over the world. She created this painting of an old-growth forest while visiting the HJ Andrews Research Forest (another amazing OSU Research Forest in the Cascade Mountains).

## Can you find:

- ☐ 5 different mammals? (5 points total)
- ☐ 7 different birds & a bird's nest? (7 points total)
